we will be glad to give you more information about our products. please don't hesitate to contact us.

biography

dj jondal owes his name to one of the most "chilly" beaches of europe's no. 1 party island ibiza – the cala jondal.

jondal is the "chef de cuisine of chillout".

dj jondal is martin a. unger from munich. his career as a&r for a variety of labels (incl. emi, mute, etc) and his enormous music background (dj since 1976 and record-collector since his childhood) builds the fundament on which jondal is moving around as an anchorman in the local chillout scene for 13 years.

jondal worked as publishing a&r for warner/chappell and with alex azary (elektrolux), he had put together the very successful selection of the night-loops "space night" for br television. therefore, over the past years fans have been won for a sound, which has outgrown the term "underground". as dj, jondal is a regular at relevant clubs, lounges and all major events. besides all these activities, he is working on his own global chill-out-music-network. distinctive labels, such as stereo deluxe (a&r), ministry of sound,

united, energy and many others, new media companies and illustrious projects like pat appleton (de-phazz), value jondal's consulting with 30 years of professional management experience in the music-business. as from 1st october 2004 dj jondal started his own company under the name jondaljazz.

from 2004 until 2011, jondal created the radio cult show "klassik lounge" for klassik radio including 9 double cds and two single cd compilations. dj jondal can surely be mentioned, as one of europe's leading chillout and lounge music djs. his daily radio show on lounge.fm, numerous compilations and many worldwide live performances for adidas, amazon, bbc, bmw, daimler, dior, emirates, jaguar, lifeball, mini, porsche design, sal. oppenheim, saturn, sony, suzuki, t-com, vw, westin grand hotels and many others reach millions. since three years jondal is the only lounge dj on the on board program (channel 992) of the emirates airlines ...
